WIRE SPOOLS

We are happy to offer you our exclusive experience kit

Congratulations for your purchase.

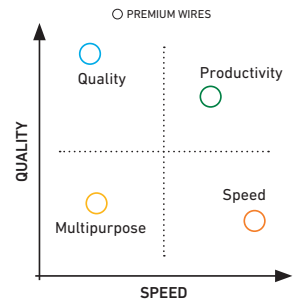

This machine is delivered with multiple erosion technologies to better match your daily needs. These technologies are developed and fine tuned using the wide range of certified wires offered by GF Machining Solutions and are perfectly adapted to your machine requirements.

This experience kit gives you access to our premium wires portfolio for your new machine purchase.

For a complete experience, with attached best performance, you have to combine technology associated. How to do?

1. Find below your wire:

- **Surface quality:** AC Cut AH 900
- **Productivity:** AC Cut VS 900+ and AC Cut VP 900
- **Speed:** AC Cut VH
- **Multipurpose:** AC Brass SP 900

2. Select the right erosion technology on the HMI:

Objective	Wire name	CUT P Erosion Technology	CUT x000 Erosion Technology
Quality	AC Cut AH 900	AC Cut AH 900	AC Cut AH
Productivity	AC Cut VS 900+ AC Cut VP 900	AC Cut VS 900+	AC Cut VS 900
Speed	AC Cut VH	AC Cut VH	
Multipurpose	AC Brass SP 900	AC Brass 900	AC Brass 900

3. Load the technology

YOU DON'T KNOW HOW TO LOAD THE RIGHT TECHNOLOGY?
